PROFESSIONAL EXPERIENCE

Creative Digital Manager

EVOKE IMPACT

- Own creative and technical delivery for executive conferences, leadership summits and corporate marketing initiatives from concept through live deployment.
- Design and develop responsive summit websites and landing pages in HTML5, CSS3, PHP and JavaScript for registrations, speaker profiles, sponsors, agendas and event information.
- Produce integrated print and digital campaign suites including executive brochures, speaker flyers, promotional banners, social media graphics and digital advertisements.
- Maintain live event websites through active campaign cycles, implementing real-time content and layout updates while strengthening visual consistency across touchpoints.

Full-Stack Web Developer

INDUSTRY TODAY AFRICA

DIGITAL PLATFORM MANAGEMENT

- Own the production website across development, design, content, SEO and infrastructure on a live custom PHP-based publishing platform.
- Manage frontend development, PHP CMS customization, content publishing, visual assets, hosting administration and ongoing platform improvements.
- Configure and maintain cPanel hosting, DNS, deployments, uptime monitoring, Google Search Console and XML sitemaps.
- Monitor security and performance, diagnose production issues and implement targeted technical fixes, including server-side validation to reduce spam submissions.

DESIGN + DEVELOPMENT

ONE PRACTICE / TWO DISCIPLINES

SELECTED WORK / PRACTICAL RANGE

Design systems that become working digital experiences.
